

What did he learn  
in the spring?

What did he forget  
over the summer?

How can we assess  
learning while teaching?

Would he benefit from  
a bilingual program?

Is he prepared to move on?

Does he need to be  
challenged more?

## What if We Knew...

Educators have questions about their students. For every stage and every learner, getting those answers just got easier.

Introducing **Academic Insights Bundles**: solutions for a variety of educators including program coordinators, teachers, district administrators, and everyone in between.

# Test Online for Insights to Inform Each Stage of the Teaching and Learning Cycle

The Riverside Academic Insights Bundles introduces an easier and more cost-effective way to gain the insights you need for every student.

## Insights Need:

## How the Academic Insights Bundles Can Help:

Test what you teach as you teach

Use *IowaFlex*® to monitor mastery of concepts throughout the school year.

Measure student ability and potential

Use *CogAT*® to understand how students prefer to learn and to guide decisions on program placement aligned to student needs.

Benchmark the performance of Spanish speakers.

Use *Logramos*® to understand students' achievement in their native language.

Gauge student learning.

Use the *Iowa Assessments* to understand student learning levels, evaluate program effectiveness, and measure impacts on student growth.

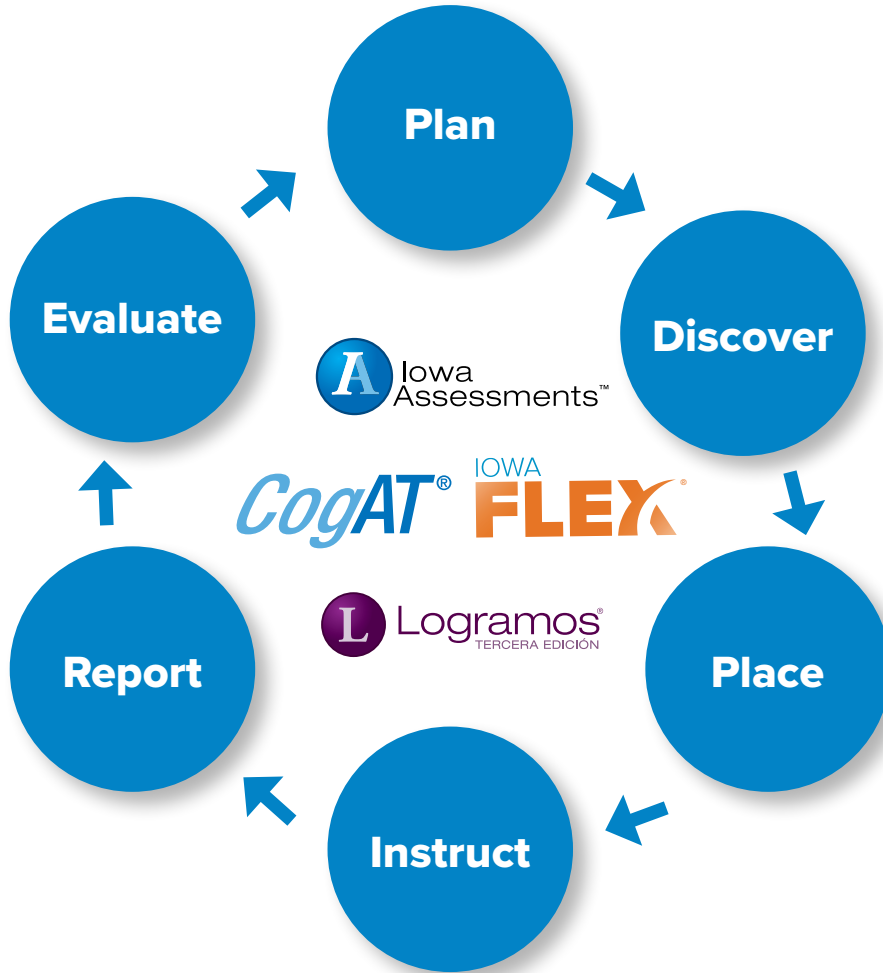

# Access Assessments for Every Stage of the Learning Cycle:

**6. Evaluate:** understand the effectiveness of curriculum and programs; gauge student mastery; utilize growth metrics to define success

**5. Report:** evaluate patterns in student outcomes to understand effectiveness of strategies to achieve learning goals

**4. Instruct:** deliver instruction, adapting to classroom, group and individual student needs

**1. Plan:** outline learning goals; prepare budget with program and staffing investments for back to school; implement new strategies to continue unlocking student potential

**2. Discover:** gauge ability for how students learn best; benchmark achievement levels and identify learning gaps

**3. Place:** match students with programs tailored to serve their personal learning needs

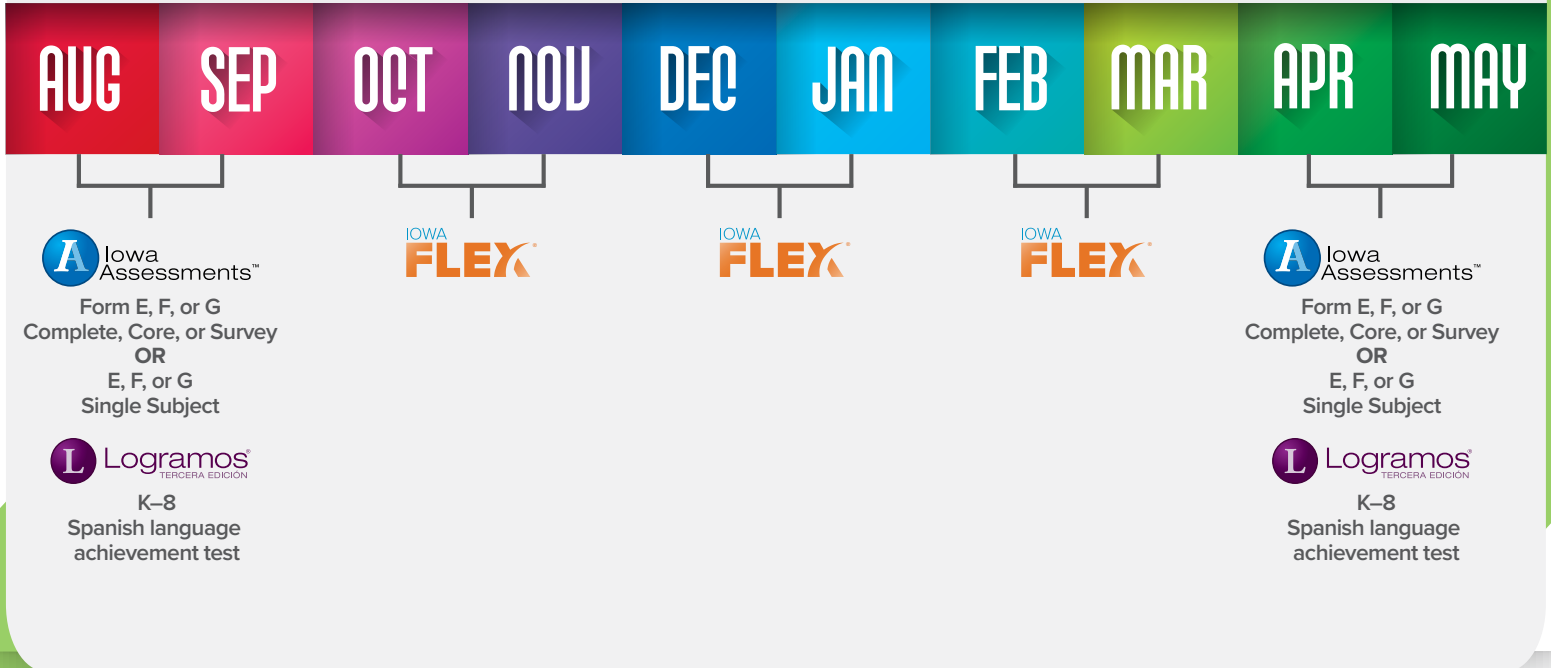

Get answers to questions during every stage.
