The easyCBM system has been engineered to provide high quality student progress monitoring while at the same time reducing teacher workload. Because there are many small differences between web browsers, we have carefully selected the ones that best accomplish our goals - delivering consistent high quality and ease of use. In some cases, users might have to download a new browser. We feel this inconvenience will be well rewarded: We can provide better support with a known browser. Although the easyCBM website will open with many browsers, it will only work properly using one of the recommended browsers:

System Requirements

Chrome	**IE**	**Android**
4+	8+	3+
Firefox	**Safari**	**iOS**
3.5+	5+	3.2+
